Cyber Safety				
Email <ul style="list-style-type: none">• Junk Mail; don't open anything unless you know who sent it• Don't use your name in your email address. That invites identity theft• When sending a group email always blind copy everyone. Addresses are personal• Never open an email/file if you don't know the sender. Easy way to get a virus/Trojan and then pass it on	Chat <ul style="list-style-type: none">• Activate the program that records your chats onto a hard drive• Meeting your chatter? Use a public place and take a friend. They may be older than you think• Photographs may not be up to date or be the person you're chatting with• Never put on a "floor show" with a Webcam. You don't know where it will end up	Fraud <ul style="list-style-type: none">• Never open Bank Email. Banks send information through the mail. They don't email• Ebay; after using their service, if an email arrives with special offers; delete it. Go to Ebay and check out offers• When a Phone Number appears in an email asking you to call, don't if sender is a stranger• Inheritance Email must be deleted. That always will come in the US mail• Delete any Microsoft junk email. They never email unless you subscribe	Passwords <ul style="list-style-type: none">• Never write them down• Use totally different password on each website• Change passwords monthly• Never share passwords• Never email passwords• Never email credit card numbers or account numbers	Questionable Websites <ul style="list-style-type: none">• All websites (email and chat too) are lockable. Parents should take this action on all computers• When downloading a program from the internet, save it (not run it). Spyware can scan and remove problems this way• Perform regular virus and spyware scans along with updates
